Subject: Info: possible leafleting of Hague offices

we understand that the Donovans (who you will know of) are planning the distribution of leaflets outside (probably) C16. It is likely that the leaflets will focus on allegations by with regard to North Sea Safety. No idea on timing, but likely to be shortly. we are working up materials: staff note; stakeholder/media response. Happy to chat through, call/mail if you have concerns. Otherwise will revert shortly with materials.
