Attention of Mr Gavin White, Company Secretarial Department, Shell International Limited

Dear Mr White

You are of course aware of our SAR Application lodged on 4 September 2009 via Mr Brandjes and my subsequent correspondence with you on the matter.

Bearing in mind that no information has yet been supplied, could you please include within the current application, any relevant Shell documents/information/communications/notes/instructions etc right up to date, so that recent events are dealt with now, rather than having to submit a further SAR application.

The recent events include an alleged sustained campaign of intimidation by Shell security staff against people lawfully and peacefully issuing leaflets on our behalf to Shell employees on public property outside the Shell Centre. We are now recruiting a new team. I will be lodging a formal complaint with the authorities as it proved to be a complete waste of time bringing the bullyboy tactics to the attention of the RDS Plc Chief Ethics & Compliance Officer, Richard Wiseman. Predictably he endorsed and supported their actions from the outset, thereby encouraging what followed.

I would also like copies of ALL Shell statements issued to the media, including in connection with the half page article published by the Guardian on 26 October and the expanded Shell statement broadcast twice by BBC Essex Breakfast Show on Monday 9 November 2009.

Best Regards
John Donovan

White, Gavin SI-LC-SFL

Attention of Mr Gavin White, Company Secretarial Department, Shell International Limited

Dear Mr White

You are of course aware of our SAR Application lodged on 4 September 2009 via Mr Brandjes and my subsequent correspondence with you on the matter, most recently my email dated 10 November.

Since I have not yet received the information requested under the application, can I just remind you to include any relevant correspondence that Mr Wiseman had with any residents of homes built on or near the former Shell terminal at Earley near Reading in Berkshire. As you may be aware, multiple attempts were made by Shell to decontaminate the land prior to its sale to Persimmon Homes for the housing development.

Best Regards

John Donovan
